

SYED MUHAMMAD FAISAL

Django Backend Developer | Python Developer | Software Engineering Intern

Karachi, Pakistan | 0332-3701206 | syedmuhammahfaisal@gmail.com | linkedin.com/in/syed-muhammad-faisal-678912282

PROFESSIONAL SUMMARY

BS Software Engineering student with hands-on experience in Python and Django backend development, database management, and web application development. Skilled in building CRUD-based web applications with Django ORM, SQLite, and Bootstrap, along with authentication and authorization implementation following MVT architecture and Django best practices. Strong foundation in object-oriented programming, problem solving, and version control with Git and GitHub. Passionate about learning modern backend technologies including REST APIs, and seeking an internship or entry-level opportunity as a Django Backend Developer or Python Developer to contribute to real-world software projects.

TECHNICAL SKILLS

Programming Languages: Python, Java

Backend Technologies: Django, Django ORM, SQLite, REST APIs (Basic)

Frontend: HTML, CSS, Bootstrap

Tools & Platforms: Git, GitHub, VS Code

Other: Object-Oriented Programming, Database Management, Search Engine Optimization (SEO), Social Media Marketing

PROJECTS

Student Management System (Django) | Python, Django, SQLite, HTML, CSS, Bootstrap

- Developed a web-based Student Management System using Django, implementing complete CRUD operations for managing student records.
- Utilized Django ORM for efficient database interactions and data modeling.
- Designed responsive, user-friendly interfaces using Bootstrap for cross-device accessibility.
- Implemented authentication and authorization features to secure application access.
- Followed MVT architecture and Django best practices to ensure maintainable, scalable code.

InvoicePro – Invoice Management System (Django) | Python, Django, SQLite, HTML, CSS, Bootstrap

- Built a web-based invoice management platform enabling invoice creation, editing, and tracking.
- Managed customer and invoice records efficiently using Django ORM for database operations.
- Implemented secure authentication and role-based access control to protect sensitive data.
- Designed responsive dashboards and intuitive user interfaces to streamline invoice workflows.

Pharmacy Billing System (Java) | Java, OOP

- Developed a console-based billing application using Java object-oriented programming concepts.
- Implemented inventory tracking and billing calculation functionality.

Restaurant Billing System (Java) | Java, OOP

- Built a console-based billing and order management application to streamline restaurant order processing.

EDUCATION

Sir Syed University of Engineering and Technology

BS Software Engineering Technology 2024 – 2028

Jinnah Government College, Nazimabad

Intermediate (Pre-Engineering), Board of Intermediate Education, Karachi 2021 – 2023

Islamia English Model School

Matriculation (Biology), Board of Secondary Education, Karachi 2021

CERTIFICATIONS

- Digital Marketing – Aptech, North Nazimabad (2023)
- Freelancing and SEO – DigiSkills (Mar 2024 – Jul 2024)

ADDITIONAL INFORMATION

Languages: English, Urdu, Italian (basic)
